

Mobilescape is the most complete wireless payment processing solution for credit cards available today. The rugged Mobilescape terminal enables secure, rapid payment transactions anywhere. Mobilescape is easy to use and doesn't require formal training - just power up and swipe.

Mobilescape benefits:

Curbside/Carside Take-out - Quickly process credit cards at the customer's vehicle. Don't make unnecessary, time consuming trips back into the restaurant.

- Save 2-4 minutes or more per carside transaction
- Increase server tips
- Improve customer satisfaction, which increases return business

Tableside Service - Process credit cards right at the table, speeding the payment process and increasing table turn around.

- Turn tables faster by saving 2-3 minutes on processing credit card payments
- Improve customer satisfaction with efficient payment collection and receipt generation
- Reduce customer concerns about the credit card being taken away from the table

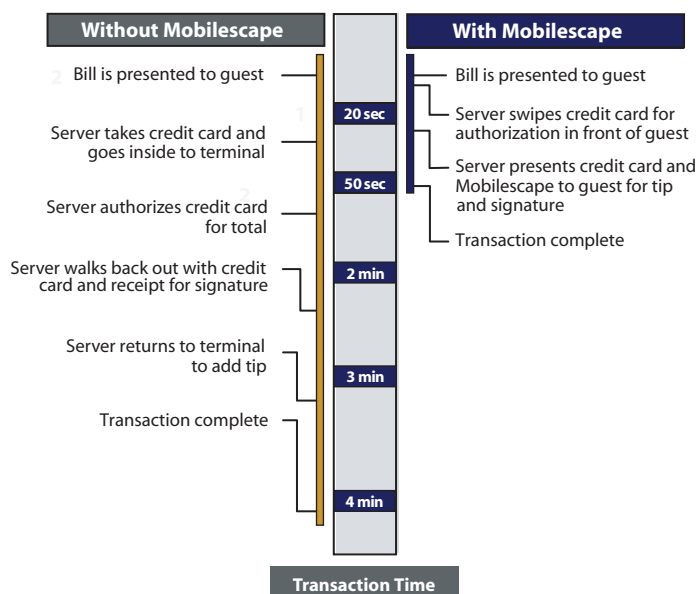

Catering and Special Events - Use the Mobilescape away from the restaurant at indoor and outdoor events. Process credit cards on the spot, without a phone line or electrical connection.

Time lost is revenue wasted - Restaurants that use Mobilescape shave minutes off each transaction, and that means more table turns and more revenue. Using Mobilescape means that busy, satisfied customers return more often, and give increased tips.

The affordable Mobilescape solution is perfect for wait staff, delivery services, and catering services. It includes hardware, software, integration services, wireless service, transaction processing, and unbeatable support and maintenance.

Mobilescape delivers immediate value to your business by increasing revenues and operational efficiency and by decreasing risk and costs.

"Mobilescape helped save critical time in our payment process by letting our Carside to Go™ specialists handle credit card payments at the vehicle, eliminating unnecessary trips into the restaurant. The Mobilescape team was completely responsive to Applebee's requirements, helping us to craft the right wireless payment processing solution for our business."

Mike Czinege, CIO
Applebee's International, Inc.

Mobilescape - mPowering Payments Everywhere

Let BankServ show you how to improve your revenues and reduce risk with our innovative payment processing solutions.

Mobilescape Advantages

Instant Online Account Access

Instant online access eliminates lost credit card imprints, reduces the number of charge backs and makes funds available faster.

Nationwide Wireless Network

Through our partnership with Sprint Nextel, you're covered on the PCS wireless network.

Depend on 24 x 7 x 365 Support

Mobilescape users can count on our support team to be available 24 x 7 x 365 to answer questions and resolve issues.

Next-Day Replacement Program

If your Mobilescape terminal goes down and is covered by our next-day replacement program, we'll ship you a replacement terminal by the next business day.
